

Wroclaw, 10th of June 2011

In autumn, a Polish city – Wrocław – will become the heart of the world of physics. On 26th -29th October 2011, the second edition of an international scientific conference, ASEPS 2011, will be held in the capital of Lower Silesia. It is organized by Wrocław Research Centre EIT +, together with European Physical Society, Association of Asia Pacific Physical Societies, Société Française de Physique, Deutsche Physikalische Gesellschaft and Polish Physical Society.

Wrocław conference will focus on contemporary trends in modern physics, including cosmology and space physics. World-class physical researchers from Asia and Europe will take part in this event, including a Nobel Prize winner, **Prof. Carlo Rubbia**.

ASEPS 2011 will be an excellent opportunity to establish international contacts that may lead to joint research projects and contribute to the development of important scientific fields. The event will also include workshops, for example about the forms of cooperation between science and industry, as well as about managing large research projects. All workshops will be led by eminent specialists in these areas.

ASEPS 2011 will be hosted in Wrocław. It is the capital of Lower Silesia and one of the fastest growing cities in Central - Eastern Europe. Wrocław, thanks to its location on the Oder River and numerous bridges, is often called the second European Venice. It is a city with a unique atmosphere, rich in historical sites, such as Market Square or Ostrow Tumski.

Deliberations on ASEPS 2011 will be held at the **Regional Centre for Business Tourism (RCBT)**. Located in a picturesque area, near Wrocław's Zoo and Szczytnicki Park, the RCBT is one of the most modern centres of that kind in this part of Europe.

Detailed information about the ASEPS 2011 and registration form can be found on the official website **www.aseps.net** and also in the files attached to this email: the official ASEPS 2011 flyer and agenda.

We look forward to meeting you at ASEPS 2011!
