

International Conference on the History of Physics

4–5 September 2014, Trinity College, Cambridge, UK

Organised by the Institute of Physics History of Physics Group in collaboration with the European Physical Society History of Physics Group

The conference will inaugurate a new international series bringing together professional historians of science, practicing physicists, science museum staff, lecturers, teachers, students and others with interests in any topics and periods of physics history.

The leading topic of the conference will be **Electromagnetism: the Road to Power**. However, papers on all aspects of physics history will be considered for inclusion.

Contributed presentations will be selected from submitted abstracts. Late submissions will be considered for poster presentations. Registration opens 1 March 2014.

A visit to Woolsthorpe Manor, where Sir Isaac Newton was born and undertook much of his work, will take place on 6 September 2014.

Invited speakers currently include:

- Dr Paolo Brenni
- Professor Jed Buchwald
- Professor Hasok Chang
- Dr Isobel Falconer
- Professor John Heilbron
- Professor Dr Heinz Krenn
- Professor Iwan Morus
- Professor Dr Friedrich Steinle

The titles of their lectures will be posted on the conference website shortly. Participants in a debate on contemporary issues concerning the presentation of science and its history in museums will be Dr Ian Blatchford and Dr Ken Arnold with Professor Jim Bennett in the chair.

The conference website can be found at <http://historyofphysics2014.iopconfs.org>
